

Set the cross base of the construction on a stable surface

Place the upper part of the structure, with the pre-mounted decoration, against the cross base.

Using the provided bolts and washers, combine both elements of the construction.

Tighten the bolts firmly against the cross base. Place the protective caps on the bolts. The stand is ready.

 **USEFUL TOOLS**

TIP: The assembly of the construction should be carried out by 2 people.

 **TECHNICAL SUPPORT**
