A POT DIFFERENT THAN ANY OTHER

Polyethylene furniture and pots become more and more popular in Poland as well as other European countries. The decorations are resistant to the various weather conditions, UV rays, and acts of vandalism, so the city can be beautiful all year round and in the colors you have chosen.

Do you know that...?

Gianto pots are made of polyethylene - a material strong enough not to bend to unfavorable urban conditions. Cracks or scratches will not appear on the surface of the containers, making them resistant to any acts of vandalism and weather conditions.

GIANTO SITO

Collection: **Urbano**

Brand: **TERRA**

A trendy flower container with a round base and a bottom adjusted to the transport with a fork lift. A special grooves make the movement and setting of the pot easy and fast. Durable materials from which Gianto was made guarantee high resistance to mechanical damage, UV rays and unfavorable weather conditions. Gianto gives maximum possibilities: it can be a sandbox, a table, a place of rest...

A wide rim of the pot is not only a decorative element! Thanks to a unique project, Gianto Sito not only can be a plant container but also a comfortable seat. Some relax in the surroundings of nature without leaving the city center? It is possible!

PLANTERS WITH BENCH SEATING

It will work in places, which do not have any access to natural ground though they need some elements of nature and an additional seating. Thanks to the highest quality material, from which the Gianto Sito was made, it will handle all weather conditions. It is resistant to the rain, snow, wind, and UV rays. Additionally, it shows high resistance and durability to mechanical damage.

Do you know that...?

Gianto pots are made of polyethylene - a material strong enough not to bend to unfavorable urban conditions. Cracks or scratches will not appear on the surface of the containers, making them resistant to any acts of vandalism and weather conditions.

GIANTO TABLO

Collection: **Urbano**

Brand: **TERRA**

A big flower container for the urban space and not only. Made from the material of the highest quality, it is exceptionally durable and resistant to the influence of external factors. A flower pot with a round base and a bottom adjusted to the transport with a fork lift- its setting is easy and fast. Gianto can be used in many different ways: it can be a flower container or even a table!

Thanks to various sizes, the pot can be used in many different ways, for example, as a big table, at which you can eat, work or read.

SHAPE & FUNCTION

The Gianto Tablo pot is a real hybrid - it combines classics and modernity. On the one hand, it has a well-known shape that works in any conditions. On the other - extraordinary use of the pot: as a city table. It is an ideal flower planter for common spaces. An appropriate size, durable materials and functionality are its greatest advantages.

Do you know that?

A specially developed Gianto base allows for easy transport of a planter with a pallet truck - its bottom has been equipped in grooves giving the possibility of any movement.

GIANTO GRANDE

Collection: **Urbano**

Brand: **TERRA**

The largest urban pot from the collection. This big plant container also can be planted with larger shrubs and trees. Convenient delivery of decorations to the site is provided by special grooves for the forklift. It is a great solution for the most extensive spaces lacking natural elements.

The solid XXL pot made of polyethylene not only perfectly fits into the green trend of cities but also it is resistant to mechanical damage and UV radiation - a great choice for many years.

GREAT GREENERY FOR YOUR CITY

The new version of the Gianto pot. Although the youngest, it is the largest - the Gianto Grande model has great potential! No wonder, because it is as much as 160 cm - this huge, but light pot with a classic shape is a sign of significant changes in space.

Do you know that?

The size will allow you to plant the largest plants, also in places without a natural substrate or just above the underground parking lot.

PLANE RING LUX

Urbano Collection

Brand: Terra

A big pot in the shape of a bowl by Terra is made from solid and light polyethylene. Its finish in the form of a decorative ring on the top creates the most trendy bench with the function of a flower container in the surroundings. It is an extremely durable and functional flower pot, perfect as a decorative element of municipalities, universities and offices.

FORM & COLOUR

A bowl of possibilities! This original pot distinguishes not only its size, but also its form. A round base expands upwards and is finished with a decorative ring. As the icing on the cake - its intense color will enliven any surroundings. The decoration is just perfect for modern spaces that lack natural accents and color accessories.

Do you know that...

Plane Ring Lux planters are made of polyethylene - a material strong enough not to bend to unfavorable urban conditions. Cracks or scratches will not appear on the surface of the containers, making them resistant to any acts of vandalism and weather conditions.
