Soundie

Hear the light!

A lamp and a loudspeaker in one. Connect your device with Soundie and hear how your favourite songs light. Have you already imagined where are you going to use Soundie?

Name	Code	Dimensions	Light Source
Soundie	BBS-01	Ø 50 x 126 h	LED

LIGHT

Soundie generates a strong light (260 - 300 lm) with a low power consumption at the same time. LEDs are the source of light in Soundie, and their angle of lighting amounts from 80 to 120 degrees.

SOUND

The 3W loudspeaker, the source of sound, is placed at the end of Soundie. It transmits sound effects sent from a paired device.

COMPABILITY

Soundie is compatible with all the devices with Bluetooth 4.0. They can be PC computers, notebooks, tablets and smartphones. There is no need to install additional software, so the operating system is not a restriction for a user.

Soundie thread is a typical E27 thread. It means that it is compatible with most lamps available on the market.

POWER SUPPLY

AC 110 - 240V

MATERIAL

The case of Soundie is made of high quality aluminium and polyethylene.

LIVELINESS

20 000 h
