Nature all around

Relax in the city center and in the surroundings of plants – it is possible thanks to the furniture from the Zebra Collection. A characteristic feature of the line are round benches, which go together with Gianto pots. An additional advantage is fabulously colorful finish. It is essential that the seat may have various color options - each rung can go in any version and their final image is not limited in any way. This can be a great idea for the arrangement of the school playgrounds, parks or estate squares. The polyethylene pot and steel seat assure that their form will remain unchanged for years as well as their resistance to the various weather conditions and mechanical damage.

Round Bench Zebra 80

A round bench, compatible with Gianto 80, with a half-round shape guarantees an eye-catching visual effect but also comfort of use. A steel bench and polyethylene used in the production process assure resistance, regardless of the weather conditions. The colors of each bench rung can be chosen according to your needs.

Features

-  a wide range of colors
-  powder coating RAL
-  hot-dip galvanized steel
-  compatible with the Gianto pot
-  smooth or rough surface
-  fixings to the ground

urbana

Furniture For Urban Jungle

Classical solutions on an urban scale. The Urbana Collection is a line of modular elements for public spaces. A bench, pot, tourist information stand or bicycle rack can be presented as individual elements, but also they can create a coherent composition in the space or become its main accent. Their high weight means that there is no need of fixing the furniture to the ground and the effect is immediate without any construction works. Steel used in the production process of the Urbana Collection guarantees that the decorations resist severe weather conditions but also acts of vandalism. They are solid, aesthetic and functional solutions for years.

Urban Pot Urbana L

A small flower pot made from steel. This model with the capacity of almost 200 liters provides the possibility of launching significant number of plants into the surroundings, even in the places without any natural substrate. A solid container can go with other elements of the collection.

Features

- compatible with the whole collection
- powder coating RAL
- frame - hot-dip galvanized steel
- walls - hot-dip galvanized steel
- smooth or rough surface
- reinforced bottom
- heavy and stable
- styrofoam insulation
- adjustable height
- culture tub

Nature and functionality

Nature and functionality – these are the elements from which the collection of urban furniture WAVE arise from. A consistent effect assure the Gianto pot, with its classical form and vivid colors, as well as unique seats with their colorful finish. The WAVE collection has a number of advantages – any combination of colors, container sizes and bench sizes allow to adapt the furniture to any space: from the main square to the kindergarten playground. A simple combination of each seat module provides next options of arrangement. Solid steel and resistant polyethylene guarantee the use for many years without any problems.
