COLOUR

- price includes painting with one colour only (standard RAL)
- adornment - additional cost
- customised painting - additional cost

safety

- The product is adapted for suspending on a steel cord or for hanging on a rack

production method

- polyester glass laminate
- bonding raw semi-finished products into laminate
- machining of laminate
- polyurethane coatings and car paint protection

Products can be recycled. Laminate waste, is regarded as inactive concerning the environment, which means that it is friendly to it.

recommendations

- **Laquer maintenance**
 - Due to the application of the two-component car paints in the production process it is advisable to use lacquer coating care products
- **Sediment removal**
 - It is advisable to use sponges soaked with dishwashing liquid.
