

granulation: information in the product composition*

			PACKAGE (EUR net price per 1kg)
Quantity(kg)			1 x 10 kg
1	10 - 60		5,00
2	61 - 100		4,50
3	101 - 500		4,00
4	ponad 500		3,50

The price does not include transport costs.

* COMPOSITION:

20% - cross-linked acrylic polymer:

Humidity (in %): 6-10 / distilled water absorbing rate: 350-550g H₂O/1g gel / brine absorbing rate: 40-70g/1g gel / absorbing time: 0,5-2h / granulation (mesh): 20-40 / biodegradation: 3-5 years / pH: 6-8 PKWiU 24.16

30% - granulated fertilizer NPK (Mg, S) 20/6/15 (2/13)

including ureaform with microelements

50% - mineral structurogenic additives (CaO + MgO content)
